THE FACILITY

270+ ACRES OF OKLAHOMA TERRAIN

The Burial Mound Event Center sits in the rolling fields and wooded terrain of Pawnee County, north-central Oklahoma. Established in 2022, the facility spans two farms connected by county roads – with courses stretching across open grassland, dense tree cover, hills, draws, and natural obstacles.

The property has hosted competitive shooting since at least 2015, when the original Oklahoma Run N Gun first brought centerfire biathlon to these fields. Today, The Burial Mound is recognized as one of the longest continually running Run N Gun venues in the country, drawing 130-170 competitors per event who consistently sell it out.
